Large Heath Butterfly

Although we will endeavour to follow our planned programme due to bad weather and other considerations this is not always possible. You can rest assured that any alterations to our planned itinerary will be made to make maximum use of our time and weather conditions.

Overview

This is a short tour of South Cumbria and an opportunity to see some amazing butterflies as well as a chance to enjoy the Cumbrian countryside and relax in pleasant surroundings.

It may also be possible for us to see several other species of butterfly including Scotch Argus and if we have time Mountain Ringlet.

Day 1 - Saturday

We set off from Norfolk early morning aiming to get to Cumbria by mid to late morning. After our picnic lunch we will search the fell for both High Brown Fritillary and if they are in flight Scotch Argus. If we are fortunate in finding these species straight away we will try for Mountain Ringlet at a site further north. If we don't have time, we may try the following day.

We will retire back to our comfortable accommodation for dinner and a good nights' sleep.

Day 2 - Sunday

After a filling breakfast depending on our success the previous day we will head towards several local reserves looking for the Large Heath Butterfly.

High Brown Fritillary

As always on these tours we will look for other wildlife as we search for our target butterflies.

All too soon we will be heading back towards Norfolk.
